## PureTek CROSS-BRED BOARS

### Performance Data

Every PureTek boar is individually performance tested and graded, and sibling-tested in the commercial test herd.

### PureTek X-CLASS Boars

- Duroc x Pietrain
- Selected for efficient lean growth
  - *Excellent growth of the Duroc*
  - *Leanness and efficiency of the Pietrain*

Used on the Generator female, the X-CLASS line will express outstanding growth, leanness and number of maximum-value pigs marketed.

These hybrid boars allow PureTek customers the flexibility to choose artificial insemination technology or natural service.

### PureTek W-CLASS Boars

- Terminal York x Duroc
- Increased lean efficiency
- Excellent libido
- Increased durability
- Perfect for natural service.

Every PureTek W-Class boar is individually tested to excel in carcass traits and growth attributes.
